The God who controls the future

I would love to know the future…because then there'd be no risk.

1. A dream about the future

"Tell me the dream first" v4, 7

The king of kings vs the Lord of Kings

Knowing the future means no plan B

2.God has a King of his own

A heavenly kingdom, a forever king

Jesus will smash all rule and rebellion

3.Align your life around God's King

V16 and v19 are backwards…offering an interpretation before you know the dream???

If you're going to make your life contingent on God to intervene (ch1),
…you need to know he controls the future and scary things, (ch2)

Daniel is so confident that God can intervene over the events of his life

Jesus is coming…we have a word ahead of time so we can be ready

Jesus is God's forever King - he smashes up all the competition.

It's not risky to give things for Jesus, because God has already told us that he will win
